All Employes of National Line of American Nationality to Quit.

Luredo, Texas, April 17 .- The walkout of American engineers and conductors was complete today on the entire northern and the guit divisions of the Mexican National railways. No serious disorder was reported. Without ex-ception the Americans are reported to have joined the strikers.

Mexican National line conductors

Mexican National line conductors and engineers will strike at five o'clock this evening by order of the executive board of the Brotherhood of Locomotive Engineers and Order of Railway Conductors. The strike order was issued from the headquarters of the unions in the United States Tuesday evening and will be obeyed by all of the railroad conductors and engineers in the republic.

The reason for the strike is the revival of an old order compelling employes of the National lines to pass an examination in Spanish. This, the American railroadmen say, is a deliberate attempt to force them from the crate attempt to force them from the line after years of service on the Mexican railroads. The strike order will affect more than 1000 American railroad men in the republic, including all of the conductors and engineers on the Mexican Courtest

the Mexican Central.

The strike follows a number of conferences between the legislative boards of the railroad orders and the officials of the National lines. An effort was made to have the rule set saide but the Mexican line officials, backed by the Mexican government, it is helleved stood pat on the order that all railroad men must analy and write the

stood pas on the order that all rallroad men must spoak and write the
language of the country.

In defense of their position the striking rallroad men say that while they
all speak Spanish it would be impossible for them to pass a technical examination in the language. They claim
that they have worked in Mexico, many
of them for 35 years, and that their
services were gindly accepted a few
years ago, regardless of their knowledge of the language. They claim
that a deliberate attempt is now beling made to discriminate against them that a deliberate attempt is now being made to discriminate against them in favor of the Mexican operating men. This they say is unfair, since Mexicans are employed on the railroads and in the railroad shops of this country, without any other requirement than that they know their business. The striking railroad man say that the unions in this country who are in sympathy with the American union men in Mexico will refuse to handle men in Mexico will refuse to handle freight billed to Mexico. They also talk of a retaliatory movement to debar Mexican laborers from employ-ment on the railroads of the southwest.

FAMILIES OF AMERICAN
TRAINMEN LEAVE MONTEREY,
Monterey, Mexico, April 17.—Many
families of American engineers and conductors are leaving here for the United States and it is expected that not one will remain here after teday. Many Americans not connected with the railroads have also left fearing the tie up of the roads would bring on other troubles which might en-danger them. Most of the American residents of Monterey, however, in-tend to remain here. tend to remain here.
